

## THE NEW NEWS!

We are pleased to announce the addition of four new machines at MW Industries: the CNC Milling Machine, a 60-ton, a 150-ton and a 400-ton Punch Press. It is our on-going effort and priority to continually acquire new equipment to better meet your needs.

Milling  
Machine**

**400-ton & 500-ton Presses**

## Did you know?

At MW this year we are celebrating both the millennium and **25 tremendous years in business**. We are proud of our past and excited about our future.

With our long history we bring know-how and the assurance of quality products to your project. We know our business and we understand that in today's competitive marketplace accuracy and speed are essential.

We take tremendous pride in our craftsmanship and attention to detail. At MW, quality control and service are more than feel-good mottos, they're our history – and our future. We have been living these words for more than a quarter of a century. You can be assured that no matter what you need, no matter how specialized, your satisfaction is guaranteed. Quality and service are at the core of our existence.
